## **CHARGING POLICY**

Published below is a schedule of South West Water's wholesale charges for the provision of water and sewerage services. They come into effect on 1 April 2017.

In addition, for continuity and ease of reference for licensees, we have separately published our wholesale charges in the 'standard schedule' format previously required by Ofwat.

'Licensee' is the holder of a water supply licence and/or a sewerage licence granted by the Water Services Regulation Authority (Ofwat) under section 17A and/or under section 17BA of the Water Industry Act 1991. Charges are set in accordance with revenue control limits determined by Ofwat. To comply with Condition E of our licence to operate, charges must not show undue preference to, or discriminate against, any class of person.

Charges are subject to the addition of any VAT chargeable.

## EIGHTH SCHEDULE

### Special Agreement wholesale charges 2017/18

The Water Industry Act 1991 allows water and sewerage undertakers to enter in to a special agreement instead of charging in accordance with a charges scheme. This agreement specifies the charges for supplies of water and sewerage services to business premises. These charges may be different to those laid out in the charges scheme.

There are a number of non-household whole sale consumers where wholesale charges are charged under a special agreement, generally at a discount to the standard wholesale charge. A summary of these agreements is published on the [southwestwater.co.uk](http://southwestwater.co.uk) website.
