
Water Resources LICENCE TO

ABSTRACT

WATER

Environment Act 1995
Water Resources Act 1991 as amended
by the Water Act 2003
Water Resources (Abstraction and
Impounding) Regulations 2006

IMPORTANT NOTES

Need for safekeeping

This licence is an important document. The permission or right to abstract water may be valuable to your landholding. So -

- **Keep the licence safe, preferably with your deeds etc.**
- **Take careful note of the comments below about “transfer and apportionment” and “death and bankruptcy”.**

This is to ensure that the permission and any rights granted by the licence continue if you need to pass it on to someone else.

If you want to:

- **revoke (cancel) the licence;**
- **vary (change/amend) the licence in any way or**
- **change your contact address (but you continue to hold the licence).**

Please write to WR Permitting Support, PO Box 4209, Sheffield, S9 9BS

Details of this licence are placed on a register, kept by the Environment Agency and open for inspection by the public. The public may also obtain further details about it by virtue of the Environmental Information Regulations 2004 (see also Disclosure of Information) except in special cases (for advice please contact us at the address shown on the front page of the licence).

Transfer and apportionment

If you need to pass this licence or any part of it to someone else, you must contact the Environment Agency and obtain the appropriate application forms. Temporary licences cannot be transferred or apportioned. The licence holder remains responsible for compliance with the terms of the licence and any charges payable until the licence has been transferred or apportioned.

Death or bankruptcy of the licence holder

If a licence has been ‘vested’ in you, as a result of the death or bankruptcy of the licence holder, please contact the Environment Agency in writing, telling us the licence number(s) and the date that the licence vested in you as a personal representative or trustee of the licence holder. This is necessary in order to enable you to subsequently transfer the licence.

‘Vesting’ is the transfer of responsibility and ownership of a licence when an existing licence holder is no longer able to hold the licence either through death or bankruptcy.

You do not have to complete a form, but you must notify us in writing within 15 months of the date of vesting, giving the full names of all personal representatives or trustees and a contact address.

Time limits

Your licence may be subject to a time limit (stated on the front of your licence). All new abstraction licences are legally required to include a time limit. For variations to licences, time limits are added in accordance with our policy.

The duration of a time limit is determined in accordance with our time limiting policy. The time limit is linked to the next or subsequent review of water resources within a Catchment Abstraction Management Strategy (CAMS).

There will be a presumption of renewal providing three tests are met: environmental sustainability is not in question; there is continued justification of need; and water is being used efficiently. Any application for renewal will still be subject to the normal statutory considerations.

If your licence is time limited and you wish to renew it when it expires, you will need to apply for a new licence to replace the existing one. You are advised to submit this application at least three months before it expires. To allow you to give early consideration to this, we will send you a reminder approximately 18 months before the expiry date.

If your licence cannot be renewed, we will endeavour to give at least six years notice. We will also endeavour to give at least six years notice where the licence is likely to be renewed on different terms and will significantly impact upon the use of the licence.

In exceptional circumstances, for example where there are other overriding statutory duties such as the Habitats Regulations, it may not be possible to provide six years notice.

Charges

Unless specifically exempted, we may levy an annual CHARGE for water AUTHORISED to be abstracted by this licence, in accordance with our abstraction charges scheme in force at the time.

The licence may be revoked if charges are not paid.

Quantity and quality of water

You must not abstract more than the quantity specified in the licence.

The Environment Agency does not, by issue of this licence or otherwise, in any way guarantee that the source of supply will produce the quantity of water authorised to be abstracted by this licence, nor that the water is fit for its intended use.

The quantity of water authorised for abstraction is given in cubic metres. One cubic metre is approximately 220 gallons.

(The precise conversion is 1 cubic metres = 219.969 gallons).

Source of supply and authorised point of abstraction

You may abstract from the point(s) specified in the licence and from no other points. If you want to add or change the authorised point(s) of abstraction, you must apply to us to vary the licence.

Land on which water is authorised to be used

Where this condition applies, you may only use the water you abstract on the area specified in the licence. You must apply to us to vary the licence if you wish to extend or alter this area or remove it.

Purpose for which water is authorised to be used

You may only use the water for the purpose(s) specified in the licence. You must apply to us to vary the licence if you wish to add to or change the purpose(s).

Offences

Under the Water Resources Act 1991 it is an offence:-

- to abstract water, or cause or permit any other person to abstract water, unless the abstraction is authorised by and in accordance with an abstraction licence, or is subject to an exemption;
- to do anything to enable abstraction, or to increase abstraction, except in accordance with an abstraction licence or exemption;
- to fail to comply with the conditions of an abstraction licence.
Note in particular that it may be a condition of the licence to maintain the meter or other measuring device etc. and failure to do so will be an offence;
- to interfere with a meter or other device which measures quantities of water abstracted so as to prevent it from measuring correctly;
- to fail to provide information which we have reasonably required for the purpose of carrying out any of the Environment Agency’s water resources functions;
- to knowingly make false statements for the purpose of obtaining a licence or consent or in giving required information.

The requirement for a licence is subject to some exemptions, set out in the Water Resources Act 1991 as amended. If in any doubt as to whether you need a licence, contact us at the address shown at the bottom of the front page of the licence.

Right of appeal

If you are dissatisfied with our decision on your licence application, you may appeal.

If you are in England, you should write to the Secretary of State for the Environment, Food and Rural Affairs, care of The Planning Inspectorate at: Room 4/19 Eagle Wing, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN.

If you are in Wales, you should write to The National Assembly for Wales care of The Planning Inspectorate at: Crown Buildings, Cathays Park, Cardiff, CF10 3NQ.

You must serve notice of appeal within 28 days of the date of receipt of this licence (although the Secretary of State and The National Assembly have power to allow a longer period for serving notice of appeal). See Water Resources Act 1991, section 43.

Disclosure of information

Information about this licence is available in the public Register held by the Environment Agency. Members of the public are also entitled to ask us for other “environmental information” it holds, including any activities likely to affect “the state of any water” or any “activities or other measures designed to protect it”. That would include the information additional to the licence document e.g. any related agreement or abstraction returns. In certain restricted circumstances it is possible to claim that information should be kept confidential. If you require more information about keeping this information off the public register because it is confidential, please contact us by writing to the address shown on the front page of the licence within 28 days of receiving this licence.

Licence Serial No:

SW/049/0281/001/R01

Please quote the serial number in all correspondence about this licence

FULL LICENCE TO ABSTRACT WATER

The Environment Agency ("the Agency") grants this licence to:-

South West Water Limited ("the Licence Holder")

Peninsula House
Rydon Lane
Exeter
Devon
EX2 7HR

Company registration number 02366665

This licence authorises the Licence Holder to abstract water from the source of supply described in the Schedule of Conditions to this licence and subject to the provisions of that Schedule. The licence commences from the effective date shown below and shall remain in force until the date of expiry shown below.

Signed

A handwritten signature in blue ink, appearing to read "J. Laeger".

Jo Laeger
Permitting Team Leader

Date of issue 20 November 2016

Date effective 20 November 2016

Date of expiry 31 March 2028

Environment Agency
Permitting and Support Centre
Water Resources Team
Quadrant 2
99 Parkway Avenue
Parkway Business Park
Sheffield
S9 4WF

The licence should be kept safe and its existence disclosed on any sale of the property to which it relates. Please read the 'important notes' on the cover to this licence.

Note: References to "the map" are to the map which forms part of this licence.
References to "the Agency" are to the Environment Agency or any successor body.

SCHEDULE OF CONDITIONS

1. SOURCE OF SUPPLY

- 1.1 Underground strata comprising of kaolinised granite at Stannon Lake, St Breward, Cornwall.

2. POINT OF ABSTRACTION

- 2.1 At National Grid Reference SX 12381 80929 marked 'A' on the map.

3. MEANS OF ABSTRACTION

- 3.1 Seepage fed excavation and two variable speed pumps.

4. PURPOSE OF ABSTRACTION

- 4.1 Public water supply.

5. PERIOD OF ABSTRACTION

- 5.1 All year.

6. MAXIMUM QUANTITY OF WATER TO BE ABSTRACTED

- 6.1 262.8 cubic metres per hour
4,000 cubic metres per day
1,464,000 cubic metres per year

At an instantaneous rate not exceeding 73 litres per second.

Note: an hour means any period of 60 consecutive minutes, a day means any period of 24 consecutive hours and a year means the 12 month period beginning on 1 April and ending on 31 March.

7. MEANS OF MEASUREMENT OF WATER ABSTRACTED

- 7.1 (i) No abstraction shall take place unless the Licence Holder has installed meters to measure quantities of water abstracted.
- (ii) The Licence Holder shall position and install the meters in accordance with any written directions given by the Agency.
- (iii) The Licence Holder shall maintain, repair or replace the meters to ensure that accurate measurements are recorded at all times.
- (iv) The Licence Holder shall keep all records of meter repairs or replacement including evidence of current certification for a period of 6 years.

SCHEDULE OF CONDITIONS (cont.)

8. RECORDS

- 8.1 The Licence Holder shall take and record readings of the meters specified in condition 7.1 at the same time each day during the whole of the period during which abstraction is authorised, or as otherwise approved in writing by the Agency.
- 8.2 The Licence Holder shall take and record continuous readings of the head of water under either condition 9.2 (i), or at such lesser frequency as directed in writing by the Agency.
- 8.3 The Licence Holder shall take and record continuous readings of the flow through the flow gauging structures installed in accordance with conditions 9.3 (i) and 9.4 (i) below, or at such lesser frequency as directed in writing by the Agency.
- 8.4 The Licence Holder shall send a copy of the records required by conditions 8.1, 8.2 and 8.3, or summary data to the Agency within 28 days of 31 March or within 28 days of being so requested in writing by the Agency.
- 8.5 Each record shall be kept and be made available during all reasonable hours for inspection by the Agency for at least 6 years.

9. FURTHER CONDITIONS

Hands-off Flow

- 9.1 No abstraction shall take place unless the level of water in Stannon Lake as measured at the Stannon Lake outfall is equal to or greater than 3.0 metres below the outfall's invert level and the abstraction shall not cause the level to fall below that point.

Stannon Lake Level

- 9.2 (i) The Licence Holder shall use a calibrated gauge board and recording device to measure the level of water in the Stannon Lake by the Rising Main Structure at National Grid Reference SX 12378 80918 shown on the map marked 'X'.
- (ii) No abstraction shall take place unless the Licence Holder has installed the calibrated gauge board and recording device required in (i) above unless otherwise agreed in writing by the Agency.
- (iii) The Licence Holder shall position and install the calibrated gauge board and recording device so as to be capable of continuous measurement to one centimetre accuracy.
- (iv) The Licence Holder shall maintain, repair or replace the calibrated gauge board and recording device to ensure that accurate measurements of water levels can be recorded at all times.

SCHEDULE OF CONDITIONS (cont.)

9. FURTHER CONDITIONS (cont.)

- (v) The Licence Holder shall retain evidence of current certification for inspection by the Agency. Any formula used to convert the level of water to a known, fixed datum shall be approved in writing by the Agency.

Stannon Lake Outflow

- 9.3 (i) The Licence Holder shall use a flow gauging structure and recording device to measure the rate of outflow from Stannon Lake at National Grid Reference SX 12246 80799 shown on the map marked 'Y'.
- (ii) No abstraction shall take place unless the Licence Holder has installed the flow gauging structure and recording device required in (i) above unless otherwise agreed in writing by the Agency.
- (iii) The Licence Holder shall position and install the flow gauging structure and recording device so as to be capable of continuous measurement to ISO:748 or equivalent standard.
- (iv) The Licence Holder shall maintain, repair or replace the flow gauging structure and recording device to ensure that accurate measurements of quantities of water are recorded at all times.
- (v) The Licence Holder shall retain evidence of current certification for inspection by the Agency. The formula used to convert head to flow shall be approved in writing by the Agency.

Stannon Stream Flow

- 9.4 (i) The Licence Holder shall use a flow gauging structure and recording device to measure the rate of flow in the Stannon Stream at National Grid Reference SX 12248 80927 shown on the map marked 'Z'.
- (ii) No abstraction shall take place unless the Licence Holder has installed the flow gauging structure and recording device required in (i) above unless otherwise agreed in writing by the Agency.
- (iii) The Licence Holder shall position and install the flow gauging structure and recording device so as to be capable of continuous measurement to ISO:748 or equivalent standard.
- (iv) The Licence Holder shall maintain, repair or replace the flow gauging structure and recording device to ensure that accurate measurements of quantities of water are recorded at all times.
- (v) The Licence Holder shall retain evidence of current certification for inspection by the Agency. The formula used to convert head to flow shall be approved in writing by the Agency.

SCHEDULE OF CONDITIONS (cont.)

9. FURTHER CONDITIONS (cont.)

Screening

- 9.5 (i) No abstraction shall take place unless the Licence Holder has installed a screen with 10mm maximum spacing at the Stannon Lake outfall to prevent the movement of fish between the Stannon Stream and Stannon Lake.
- (ii) The Licence Holder shall maintain the fish screen in accordance with the manufacturer's specifications and keep records of such maintenance available for inspection.

Monitoring Programme

- 9.6 The Licence Holder shall undertake a programme of investigation into the nature and characteristics of any potential hydraulic interlinkage between the Stannon Stream and the adjacent Stannon Lake. The programme content and the timing of provision of collected data and interpretive analysis of findings to the Agency, shall be agreed with the Agency to achieve a suitably targeted investigation.

The investigations should include, but not be limited to;

- gathering data on the local groundwater table conditions in the intervening area,
- undertaking groundwater level logging over time,
- carrying out seepage inspections during dry weather and under differing lake drawdown conditions, and,
- installing piezometers sets as required.

ADDITIONAL INFORMATION

Note: the following is provided for information only. It does not form part of the licence.

REASONS FOR CONDITIONS

The abstraction is required to be metered to demonstrate compliance with the terms of the licence and to provide information on actual water usage for water planning purposes.

The licence is time-limited to a date to reflect the timing of a future review of the catchment resources availability.

The licence includes a hands off level condition to safeguard the environment and existing protected rights.

The licence includes environmental monitoring conditions to allow a further assessment of the impact of the abstraction at the end of the time-limited period.

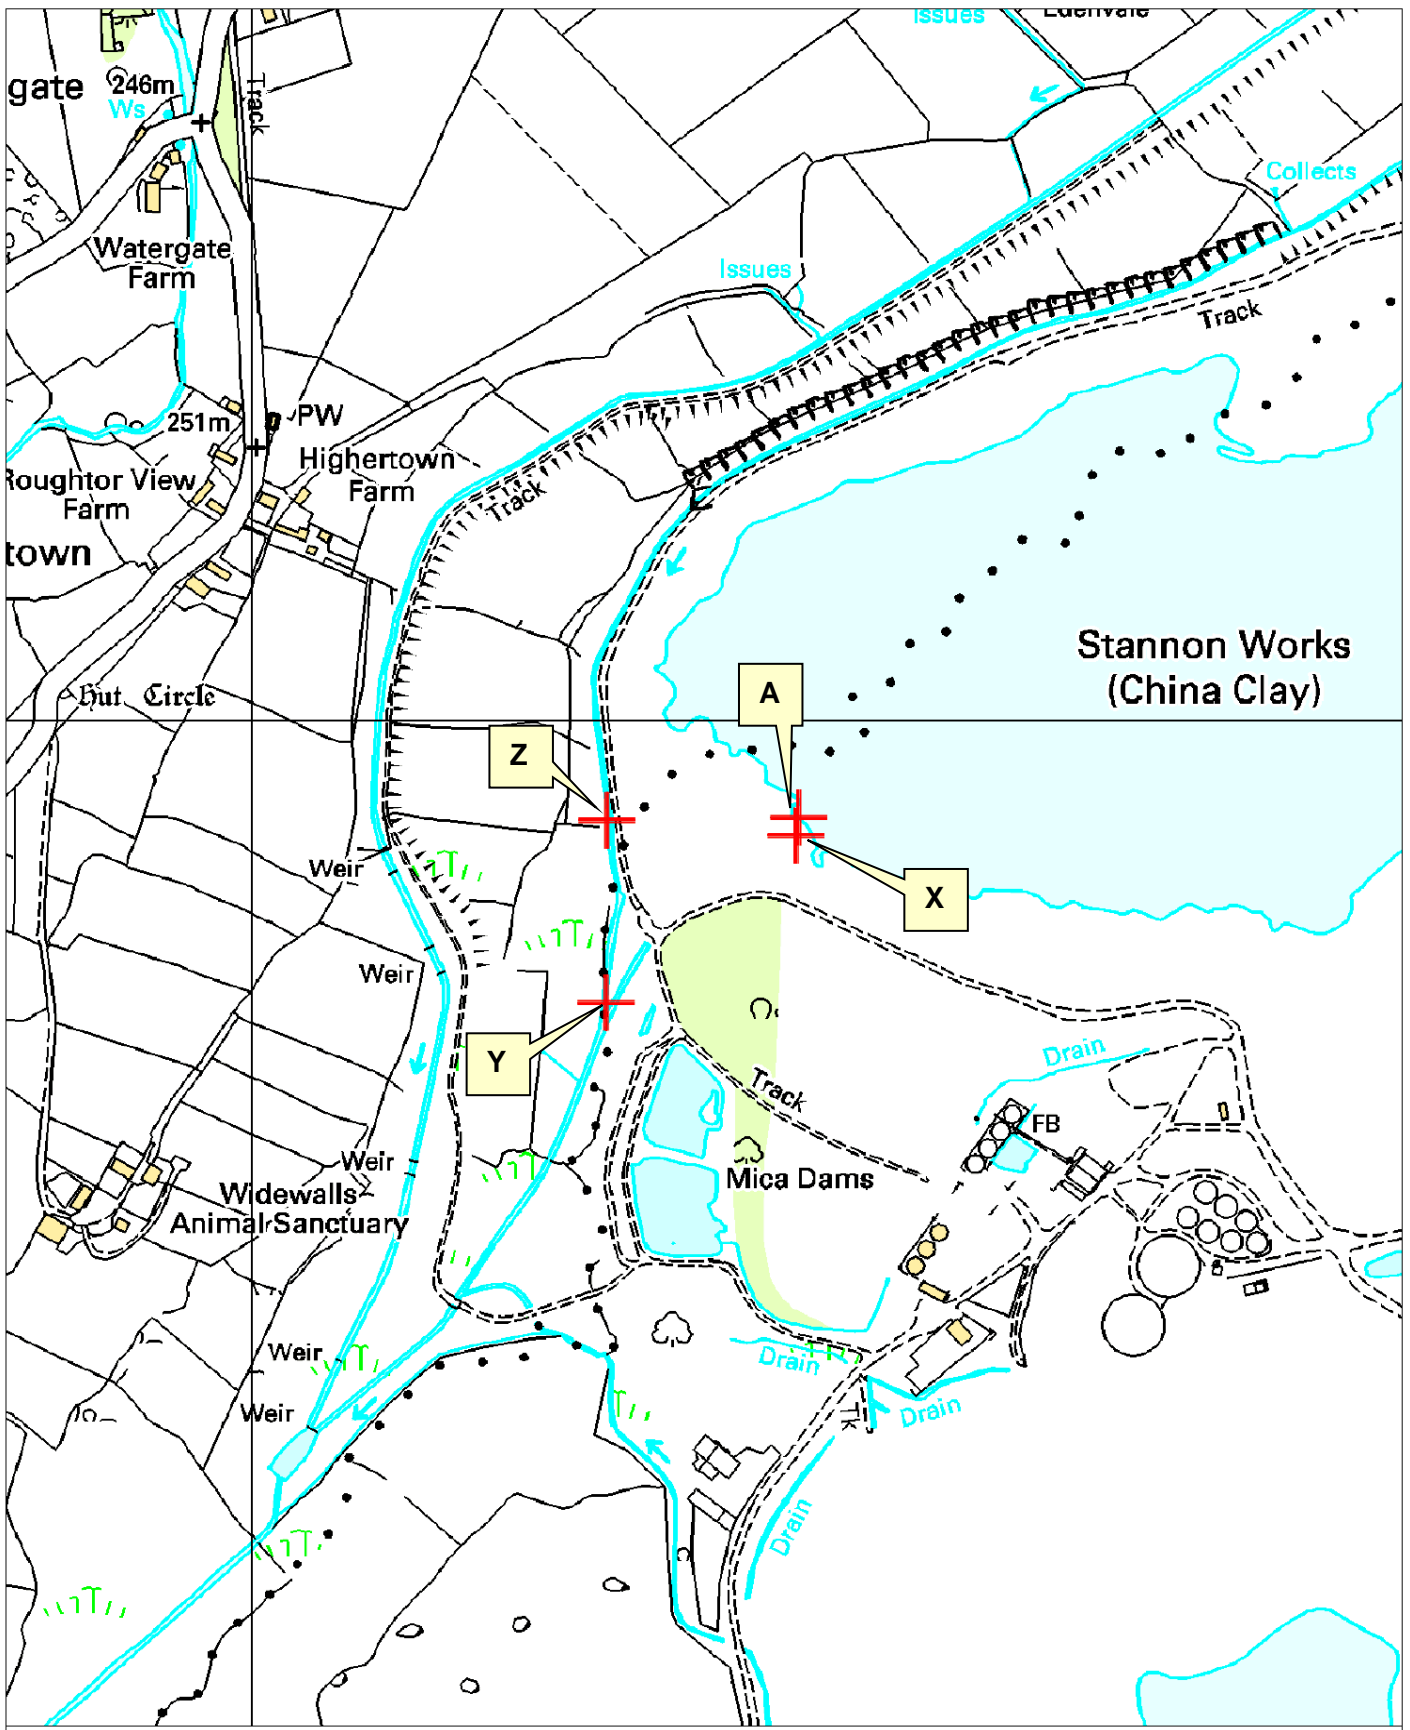

IMPORTANT NOTES

Metering

The Agency will have regard to its Abstraction Metering Good Practice Manual (or equivalent guidance) in directing any of the following: where the meter should be located or how it should be installed; whether the meter measures accurately, and/or is properly maintained; whether it is necessary to require repair or replacement of the meter.

Licence History

Licence serial number	Issue date	Expiry date	Summary of changes
SW/049/0281/001	26/1/2010	31/3/2016	Application for new licence to allow water to be abstracted from Stannon Lake
SW/049/0281/001/R01	20/11/2016	31 Mar 2028	NPS/WR019568. Application to renew licence under the same terms
