

SL-N2B Notification of proposed routine mains connection

This form should be used by Self Lay Providers (SLPs) to inform South West Water that they intend to make a routine mains connection, i.e. inline. It should be submitted five working days in advance of the date on which the mains are to be swabbed, chlorinated and pressure tested, to DeveloperServicesSelfLay@southwestwater.co.uk.

1. Scheme Details

Work request number

Site name

Developer

Self Lay Provider

2. Swabbing, Pressure, Testing Chlorination and Connection Dates

When did you swab the mains?

When did you pressure test the mains?

When did you to chlorinate the mains?

When was the sampling of the main?

Was the sample carried out by South West Water?

A more precise date/time for the connection will be discussed with you once the sample results are known.

Estimate connection date

Estimated start time

Estimated Finish time

3. Details of the mains to be commissioned

How many end washouts or end hydrant/washouts are there on the mains that are to be commissioned?

You must attach a plan, showing the mains on this site, to this form. Please clearly highlight the mains that are to be commissioned.

Tick to indicate that such a plan is attached.

Please indicate the diameters and approximate length of the mains that are to be commissioned.

Diameter (mm)	Length (m)
63	
90	

110	
125	
160	
180	
Other (please specify)	

4. Competent and Senior Competent Person (CP &SCP)
