

# Material Codes

Environmental Material code	Description
E02	Precipitation
E03	Groundwater
E04	Land / surface drainage
E05	Leachate
E06	Surface water
E07	River / stream
E08	Estuarine
E09	Canal
E10	Lake / pond
E11	Sea water
E12	Marine sediment
E13	River sediment
E14	Soil (for agricultural use)
E26	Bathing beach
E27	Soil (for non-agricultural use)
E29	Treated tip leachate

Water treatment Material code	Description
W02	Raw water at treatment works
W21	Final water at treatment works
W24	Potable mains distribution water
W25	Non potable mains distribution water
W28	Customers premises – hot water system
W29	Customers premises – cold water system – mains water
W51	Private potable water supply
W55	Private water supply raw
W56	Private water supply in bottles or containers
W57	Cooling water
W60	Grey water

# Material Codes

Sewage treatment Material code	Description
S02	Crude sewage
S03	Tankered waste – food processing waste
S04	Tankered waste – cess pit
S05	Tankered waste – septic tank
S06	Tankered waste – tip leachate
S08	Tankered waste – contaminated water
S10	Tankered waste - other
S17	Activated sludge / mixed liquor
S18	Secondary effluent
S23	Final effluent (extent of treatment unspecified)
S29	Raw sludge
S32	Digested sludge
S36	Dried sludge
S91	Sewage final effluent saline

Trade wastes Material code	Description
T06	Trade in-works
T08	Vehicle wash station – recycled water
T09	Vehicle wash station – recycled water with chemical addition
T10	Trade to controlled waters
T11	Trade to sewer

Miscellaneous Material code	Description
X02	Swimming pool water
X03	Natural mineral water / spring water / bottled drinking water
X04	Other foods
X07	Tip solids
X08	EA – any soil / sediment unspecified
X16	Bottle – wash check for BWCA Regulations
X17	Bottle closure – wash check for BWCA Regulations
